DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on May 25, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 6,633,389 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 24-27 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claim 24, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a method of determining the material intercepted by a spot of light during the measurement of a region including at least a first material and a second material, where the material is determined by the measured intensity of the light scanned onto the region, in combination with the rest of the limitations of the claim. This is also in relation to the terminal disclaimer filed as discussed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420. The examiner can normally be reached on Monday thru Thursday.
